

We recommend to book a travel cancellation insurance. You should also check the suitability of your travel health insurance and your baggage insurance. For travel cancellation insurance ask us for an insurance when you book your ticket to Namibia.

for health insurance we got an offer from EMED Rescue 24. This can be a possibility, but for now we have no experience about that.

Why have incoming travel insurance?

Namibia, one of the least populated countries in the world, is Africa at its best. A land of contrasts and colours, friendly people, fascinating landscapes and wide desert expanses, Namibia is a country you will fall in love with.

Travel insurance is vital when travelling to Africa in the event that you fall ill or have an accident and require medical care. AON incoming travel insurance policy covers travellers into Namibia for unexpected medical conditions. It also has other benefits such as Cancellation cover, Curtailment cover and Personal Liability cover.

Linked to the insurance are the 24 hour emergency assistance services of Europ Assistance who work with locally represented E Med Rescue 24 to provide you with emergency assistance services such as transportation to medical facilities, quarantines and direct payment of medical bills, return of mortal remains and staying in touch with your loved ones.
